HOW TO
SUBMIT
YOUR IDEAS TO
FUNKO
POP

No copyright intended toward the Funko Pop toy company.

it’s really simple: you email Funko Pop, and they’ll send you a link. Then you fill out the figure and products page with your name, email address, select the product type you want, enter the character name and fandom link, and add any additional information or description about how you want your toy to look then click submit button.

I’ve had several ideas come to life, and it’s so exciting when your toy idea gets chosen.

If you don’t want to email them, just type “figures and products submission” into an internet search and you can find it that way too.

If someone has a toy idea they want turned into a real toy, now they’ll know how to do it. You can submit as many ideas as you like—one year, 600 ideas were submitted, and several of them became actual toys.

If someone has a toy idea they want turned into a real toy, now they'll know how to do it. You can submit as many ideas as you like—one year, 600 ideas were submitted, and several of them became actual toys.

You can submit anything, such as movies, TV series, cartoons, video games, or app characters.
